Concepts & Methodologies: Responsive Design, API Integration, MVC Architecture, Agile Methodology

PROFESSIONAL EXPERIENCE

Web Developer – KPR Coimbatore Feb 2026 – Present

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, React.js, PHP and Laravel
- Built reusable UI components to improve development efficiency and maintainability
- Worked on improving website performance, layout responsiveness, and cross-browser compatibility
- Collaborated with team members to implement new features and fix UI bugs

Freelance Web Developer Self-Employed | Remote | 2025 – Present

- Developed and maintained a personal freelance services platform to showcase and offer web development services
- Built custom responsive websites for clients using HTML, CSS, JavaScript, React.js, and Next.js
- Implemented modern UI/UX designs with smooth animations and optimized performance
- Integrated REST APIs and ensured mobile responsiveness across all devices and screen sizes

Frontend Developer Intern – KGiSL Educational Institution Oct 2025 – Jan 2026

- Developed 10+ responsive and interactive UI components using React, improving page load performance and usability
 - Collaborated with cross-functional teams to implement user-facing features
 - Improved UI performance, accessibility, and cross-browser compatibility
 - Used Git for version control and followed Agile development practices
-

PROJECT EXPERIENCE

Personal Portfolio Website Next.js, TypeScript, Tailwind CSS, GSAP

- Developed a modern, responsive portfolio website to showcase projects and technical skills
- Implemented smooth UI animations and transitions using GSAP
- Applied SEO best practices and performance optimization techniques in Next.js

- Deployed on Vercel with GitHub-based CI/CD workflow

Freelance Services Website React.js, Next.js, Tailwind CSS, JavaScript, PHP, Laravel

- Built a professional freelance platform to showcase services, skills, and client offerings
- Designed clean, responsive UI with smooth user experience across all devices
- Implemented service listing, contact form, and inquiry system for client communication
- Deployed on Vercel with optimized performance and fast load times

iPhone Website Clone Next.js, TypeScript, Tailwind CSS, GSAP, Firebase

- Built a responsive iPhone product website with modern UI styled through Tailwind CSS
- Enhanced user engagement with GSAP Scroll Trigger animations for smooth scrolling and interactive transitions
- Integrated Firebase to manage product data and display dynamic listings across all screen sizes

Netflix Clone Application Next.js, TypeScript, Tailwind CSS, TMDB API, Docker

- Developed a Netflix-inspired streaming web application with real-time content fetching using TMDB REST API
- Designed reusable UI components with optimized SSR rendering and image performance
- Containerized the application using Docker for consistent builds and deployments
- Deployed on Vercel with environment variable management

Online Electronics Store React.js, Spring Boot, Hibernate, MySQL, Java

- Designed and developed a full-stack e-commerce platform with complete CRUD functionality
- Implemented product management features including add, update, delete, and search
- Developed RESTful APIs using Spring Boot and Hibernate ORM

EDUCATION

Bachelor of Engineering – Mechanical Engineering Anna University Regional Campus – Tirunelveli | 2020 – 2024 | CGPA: 7.71

HSC | St. Ann's Matric. Hr. Sec. School | Jun 2019 – May 2020 | 74%

SSLC | St. Ann's Matric. Hr. Sec. School | Jun 2017 – May 2018 | 84%

CERTIFICATIONS

- Mastering AI on AWS – AWS Certified AI Practitioner
- Introduction to Front – End Development – Simplilearn
- HTML & CSS: Basic to Advanced – Udemy
- AI for Beginners – HP LIFE
- Java Full Stack – J spider Bengaluru
- Software Engineering Job Simulation Certificate – JPMorgan Chase & Co
- Technology / Consulting Virtual Experience – Deloitte
